Lineage 2 Bot L2Walker Latest Version Works On Private Servers To Hack offline. L2Walker is a bot that helps you to hack Lineage 2 Offline servers. L2Walker are available for both windows and mac, with support for all the latest operating systems including the latest Windows 10. It features an easy to use interface that guides you through the process of downloading and installing the tool, it has an integrated help section so even if you have no experience with programming or modifying bots, it won't be difficult using this program. Along with its great interface it also offers a range of great features to help eliminate your Lineage 2 Offline hacking woes. It comes with a range of features and also has some settings that can be modified to suit the user's needs. L2walker enables you to: The bot will give you a list of lines for each main NPC, as well as the items within those files. This includes all the items that can be traded or bought from shops. You can also see where all these items are located in your maps and draw your maps without leaving it open. All of this information is readily available and allows you to focus more on the hacking rather than tedium and fact finding about items and NPCs. Some of the features include an NPC's loot table, including what drops, cash drops and rare drops. The bot also detects the difference between world specific NPCs (such as Lady Pickpocket on Aden), NPC specific spawns (such as Che'Kah or Tuhl) and non-specific spawns (such as Crescents). It is important to note that some of these NPCs require certain quests to trigger their appearance, but by using L2Walker you can find out what triggers them. The bot supports multiple game clients, which allows you to change your game client while its running. Also it automatically detects the client once connected to a server supporting the client version. One of this feature is a function named autodetection, which can help you to tell if the client version you are using is compatible with the server hosting the hack. L2Walker is a powerful hack bot that can hack Lineage 2 offline without any problem. L2walker has been tested and proven to work during multiple hack sessions. It is very easy to setup and use.
